### NURTURE CATERING

St George's are proud to recommend Nurture Catering, a not-for-profit division of St George's Crypt, for quality buffet style breakfast, lunches, and bespoke dinners.

Nurture Catering is based within St George's Crypt and engages with client trainees to enable them to enter the workplace at their own pace until their confidence and skills are built to a level they feel allows them to go into mainstream work. They are pastorally supported and mentored by Head Chef, David Pilling, to help fulfil their own potential. In doing this, quality food is served on a daily basis to St George's Centre which in turn funds the costs of trainers and commodities.

As St George's Centre work in partnership with Nurture, we are happy to provide a bespoke service for each customer, therefore if you would like to make any changes to your chosen menu please discuss this directly with our events team as additional charges may apply.

We are happy to cater for dietary requirements but these need to be requested in advance e.g. vegan, gluten free, dairy free, halal etc. No VAT will be added to the prices below.
